

WHERE THE WORLD'S BRIGHTEST MINDS **COME TO GROW**

At the Johns Hopkins Center for Talented Youth (CTY), we specialize in recognizing and developing the academic talents of elementary, middle, and high school students.

Qualifying for CTY means gaining access to summer and online courses, academic counselors, and family learning adventures. It means connecting with expert instructors and fellow students from around the world who share your interests. It means learning to take risks, make mistakes, think creatively, and grow confidently.

We're hosting a free event in your area this month for students in grades two through eight and their families. This is a chance to learn about CTY's programs, ask questions, and connect with other families of bright students. We hope to see you there!
